

Amendments

Sno	Page	Section	Existing Clause	Amended Clause
1	Amendment		The bidder should arrange for a certificate from VMware-TAM for usage of all VMware components and following of best practices during installation and configuration of VMware including Micro-segmentation parts. The verification and certification must be performed every year. The report must be submitted for obtaining sign-off for the implementation."	The bidder should arrange for a certificate from VMware-TAM for usage of all VMware components and following of best practices during installation and configuration of VMware including Micro-segmentation parts. The report must be submitted for obtaining sign-off for the implementation.
2	Amendment	Rack Specification - KVM Console	Same OEM as that of server make for Keyboard, Mouse and minimum of 19" TFT Rack mountable and foldable monitor to be provided.	Same OEM as that of server make for Keyboard, Mouse and minimum of 17" TFT Rack mountable and foldable monitor to be provided.
3			Monitor resolution must be atleast 1280x1024 for standard ratio; 1440x900 for 16:9 aspect ratio.	Monitor resolution must be atleast 1366x768
4			Should be 1-U and rack mountable form factor 1 unit of KVM & Monitor switch to be supplied at each site	Should be atleast 1-U and rack mountable form factor 1 unit of KVM & Monitor switch to be supplied at each site
5			Should use a 3-in-1 KVM cable that supports USB or PS/2 target devices	Should use a 3-in-1 KVM cable or 2-in-1 KVM cable that supports USB or PS/2 target devices
6			minimum 10 systems with On Screen Display, USB and PS/2 support with 10 nos. of Cable USB min. 6 ft	Please refer to the amendment
6			Monitor must support DVI-D and VGA ports	Monitor must support DVI-D or VGA ports
7	Page 30,Point 22	1.1Scope of Work – (To be done by the Bidder):	Solution should have Comprehensive cross-product, 24x7 global access with unlimited requests.	Clause Removed
8	Amendment	Commercial Bid	Please include ToR switch in the commercial bid format	Revised Commercial Bid enclosed
9	Pg.76	TOR Specification	Switch should support minimum 3 Tbps of switching capacity	Switch should support minimum 2 Tbps of switching capacity
10	Amendment	Eligibility Criteria	The bidder should have successfully Installed and maintained VMware Cloud solution (by utilizing Esxi/vCloud Suite/vSphere) with a minimum of 300 Virtual Machines (cumulatively across 3 organizations' DC/DR) deployed and managed at Customer's DC/DR in Indian Market in the last 5 years 2019, 2020, 2021, 2022 and 2023 for a minimum of 3 PSU Bank or Scheduled Commercial Bank, NBFC, Insurance Company, PSU, Private Organization in India, and should have supplied full-time resident engineer for supporting the solution	The bidder should have successfully Installed and maintained VMware Cloud solution (by utilizing Esxi/vCloud Suite/vSphere) with a minimum of 300 Virtual Machines deployed and managed cumulatively across 3 organizations' DC or cumulatively across 3 organizations' DR in Indian Market in the last 5 years 2019, 2020, 2021, 2022 and 2023. The organization can be a PSU Bank or Scheduled Commercial Bank, NBFC, Insurance Company, PSU, Private Organization in India. The bidder along with VM deployment and management, should have supplied full-time resident engineer for supporting the solution in atleast any One of the 3 organizations.
11	Pg.86	Commercial Bid	Microsoft Windows Data Centre Edition (2022 or latest with support for n-2 downgradability at no additional cost) with SA and corresponding User-CAL licenses- 1200 nos (along with 3 years ATS)	Microsoft Windows Data Centre Edition (2022 or latest with support for n-1 downgradability at no additional cost) with SA-3 years and corresponding User-CAL licenses- 1200 nos
12	Pg.86	Commercial Bid	Microsoft Windows Data Centre Edition (2022 or latest with support for n-2 downgradability at no additional cost) with SA and corresponding User-CAL licenses- 1200 nos (along with 3 years ATS)	Microsoft Windows Data Centre Edition (2022 or latest with support for n-1 downgradability at no additional cost) with SA-3 years and corresponding User-CAL licenses- 1200 nos
13	Pg. 29	1.1Scope of Work – (To be done by the Bidder):	6. Entire workflow should be built considering various scenarios like change in storage (adding disk, removing disk from VM), network, OS flavour, memory i.e., T-shirt sizing has to be provided and user should be able to Choose when requesting VM. User should be able to choose combination of OS, Application (MSSQL Standalone, Oracle RAC, Apache, Weblogic, Tomcat), T-shirt size and Platform(VMware) while deploying.	Clause Removed
14	Pg. 77	TOR switch - Network Virtualization Features	Switch solution should provide micro-segmentation rules and policies for workloads connected for segmenting the east-west traffic. It must support segmentation of VM based attributes like hostname, OS, VM Tags, FQDN, Microsoft AD based classification	Clause Removed
15	Pg. 77	TOR switch - Network Virtualization Features	Switch solution must support Micro Segmentation for the Virtualized and Non - Virtualized environments also (Baremetal, Container).	Clause Removed
16	Pg. 77	TOR switch - Network Virtualization Features	All the necessary hardware/licenses, if any, for utilizing the micro segmentation feature must be populated/available from Day 1	Clause Removed
17	Pg. 77	TOR switch - Layer 3 features	Switch should support segment routing and VRF route leaking functionality from day 1	Clause Removed
18	Pg. 77	TOR switch - Layer 3 features	Switch should support Segment Routing and Layer3 VPN over Segment Routing	Clause Removed
19	Pg.78	TOR switch - Layer 3 features	Support Multicast Source Discovery Protocol (MSDP)	Clause Removed
20	Pg.79	TOR switch - Manageability	The Service Provider should provide a management platform from same OEM (with necessary Hardware, Software and Licenses) for the switches quoted, in order to provide proactive health monitoring, resource utilization, anomaly detection, flow analytics, pre-change analysis, TCAM utilisation, Advisories like PSIRTs, bugs etc. The required compute appliances for deploying this solution in DC DR from the same OEM will be supplied by the bidder day one.	Clause Removed
